TO WHOM IT MAY CONCERN

License for measuring radon insulation properties of materials

By authority granted to me under regulations 8, 9 and 11 of the Pharmaceutical Regulations (Radioactive Elements and their Products) 5740 (Hebrew calendar), 1980, as amended and subject to the conditions detailed in the "License for measuring Radon Gas and Radionuclide Concentration" nr. 1196, valid till Jan. 1, 2016, permission is granted to the Laboratory for Measuring Environmental Radiation from Ben Gurion University, Ben Gurion Blvd. nr. 1, Beer Sheva, Israel, directed by Nathan Lavi, Atzmaut Str. nr.10 , Petach Tikva, Israel, to provide measurement service of radon insulation properties of materials.

With best regards,

Stelian Ghelberg, Ph.D.

Head of the Radiation Protection and Noise Abatement Department
